- **Insurance claims filed for you**

***When
Accidents
Happen...***

***We Can
Help!***

If you or a friend or loved one has been involved in an automobile accident, here's what you should know about your health.

1. Even a minor accident can cause injury. Never assume that you are not injured just because there is little or no damage to your car. Seek professional care immediately.
2. If a paramedic suggests you go to the emergency room, don't decline. You may be suffering from shock, and will be unable to properly judge the situation. Even the smallest fracture in your spine can be very serious!
3. Muscle aches, soreness, headaches and other symptoms associated with whiplash injuries may not show up until 24-72 hours after the accident. The sooner you seek treatment, the less likely it will be that you will have severe pain or permanent damage.
4. Studies show that ICE applied immediately to the injured area will help keep swelling and pain to a minimum.

IF YOU WOULD LIKE ANY ADDITIONAL INFORMATION ABOUT AUTO ACCIDENTS, WORK RELATED INJURIES OR OTHER HEALTH RELATED PROBLEMS, PLEASE CALL US. WE WILL BE HAPPY TO ASSIST YOU IN ANY WAY POSSIBLE.
